HINDLE PRODUCT LISTING DIRECTORY

Welcome to our 2011 OFF-ROAD/MX/ATV application listing. All of our Slip-On Adapters and Front Sections are muffler sold separately, unless indicated. For a Front Section that eliminates the entire stock front section, please select your specific model under the listing "STAINLESS STEEL FRONT SECTIONS". Then, select the appropriate muffler to fit your Hindle Front Section. For a Slip-on that retains the stock front section, please select your specific model under the listing "STAINLESS STEEL SLIP-ON ADAPTERS". Then, select the appropriate muffler to fit your Hindle Slip-On Adapter. All Hindle Slip-On Adapters and Hindle Front Sections include necessary mounting hardware.

OFF-ROAD/MX FRONT SECTIONS

Manufactured from thin gauge stainless steel for the most in durability, wear and tear. Super lightweight material creates drastic weight savings (compared to stock). Superior quality paired with high performance. Muffler sold separately - please refer to required muffler style. Front sections include (unless otherwise noted): front flange, front primary, mid-pipe, spring kit, all mounting hardware, model-specific bracket (certain models only). Easy to assemble! Follow owner's manual for stock system removal, then follow our "General Off-Road Instructions" to mount the Hindle system. We suggest using a high temperature silicone, such as UltraCopper by Permatex to create an extra seal at slip joints.

2009-2011 YAMAHA YFZ450R Slip-On

OVAL OFF-ROAD/MX MUFFLERS

Once you have selected your model specific front section (for a full system) or slip-on adapter (for a slip-on), you must select the required Hindle muffler style. Our Off-Road/MX mufflers feature a newly redesigned end cap and uses sound directional technology, which emits noise pollution towards the ground. This restricts noise levels to keep sound at a minimum. Also available are our 96db and under mufflers, which feature a specialized inner chamber (located in the core of the muffler), which traps sound and helps keep noise limits at an absolute minimum - great for the track, trail riding, or closed-competition courses. Mufflers are available in Oval or Round, 16" or 18", and in Aluminum, Titanium, Carbon Fiber, or Black Ceramic Coated.

OVAL ATV MUFFLERS

Once you have selected your model specific front section (for a full system) or slip-on adapter (for a slip-on), you must select the required Hindle muffler style. Our Off-Road/MX mufflers feature a newly redesigned end cap and uses sound directional technology, which emits noise pollution towards the ground. This restricts noise levels to keep sound at a minimum. Also available are our 96db and under mufflers, which feature a specialized inner chamber (located in the core of the muffler), which traps sound and helps keep noise limits at an absolute minimum - great for the track, trail riding, or closed-competition courses. Mufflers are available in Oval (larger oval) or Round (same as the Off-Road/MX mufflers), 16" or 18", and in Aluminum, Titanium, Carbon Fiber, or Black Ceramic Coated.
