2011 SNOWMOBILE PARTS LISTING

HINDLE PRODUCT LISTING DIRECTORY

Welcome to our 2011 SNOWMOBILE application listing. All of our Slip-On Adapters and Front Sections are muffer sold separately, unless indicated. For a Front Section that eliminates the entire stock front section, please select your specific model under the listing "STAINLESS STEEL FRONT SECTIONS". Then, select the appropriate muffler to fit your Hindle Front Section. For a Slip-on that retains the stock front section, please select your specific model under the listing "STAINLESS STEEL SLIP-ON ADAPTERS". Then, select the appropriate muffler to fit your Hindle Slip-On Adapter. All Hindle Slip-On Adapters and Hindle Front Sections include necessary mounting hardware.

SNOMOBILE STAINLESS STEEL FRONT SECTIONS

Manufactured from thin gauge stainless steel for the most in durability, wear and tear. Super lightweight material creates drastic weight savings (compared to stock). Superior quality paired with high performance. Muffler sold separately - please refer to required muffler style. Front sections include (unless otherwise noted): front flanges, front primaries, mid-pipe, collector, spring kit, all mounting hardware, model-specific bracket (certain models only). Easy to assemble! Follow owner's manual for stock system removal, then follow our model-specific Snowmobile Installation instructions to mount the Hindle system. We suggest using a high temperature silicone, such as UltraCopper by Permatex to create an extra seal at slip joints.

MAKE	MODEL	YEAR	DESCRIPTION	REQUIRED MUFFLER STYLE	FULL SYSTEM PART NUMBER	RETAIL
SKIDOO	ROTAX 4-TEC 1200	2009-2012	Front Section with Hindle Muffler	MXZ	MXZ1200SSH	\$799.95

SNOWMOBILE STAINLESS STEEL SLIP-ON ADAPTERS

Manufactured from thin gauge stainless steel for the most in durability, wear and tear. Perfect for a quick swap of the stock mid-pipe and muffler. Get the sound and look you want, without needing to purchase the full system. Muffler sold separately - please refer to required muffler style. Slip-on adapter includes (unless otherwise noted): mid-pipe (to adapt to stock front section/collector only), springs, spring tool, and any model-specific brackets (certain models only) required for installation.

SNOWMOBILE MUFFLERS

Once you have selected your model specific front section (for a full system) or slip-on adapter (for a slip-on), you must select the required Hindle muffler style. Our snowmobile mufflers are only available in our "Stealth" version, which features a tapered inner core for optimal noise restriction. An additional noise reducer insert is also available, should you wish to quiet down the muffler even further (part number MXNR, \$39.95 MSRP). Mufflers are available in a 16" length, and in Aluminum, Titanium, Carbon Fiber, or Black Ceramic Coated. All mufflers below can be used with the Hindle Snowmobile Front Section, or the Hindle Snowmobile Slip-On Adapter.
